

STATEMENT

Toxic Substances Control Act

As required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Environmental Protection Agency (EPA) issued five (5) final rules on January 6, 2021, to reduce exposures to certain chemicals that are persistent, bio accumulative and toxic (PBT) (the "Rules"). These chemicals build up in the environment over time and may result in potential risk to exposed populations, including the general population, consumers and commercial users, and susceptible subpopulations (such as workers, subsistence fishers, tribes and children).

The Rules limit or prohibit the manufacture (including import), processing, and/or distribution in commerce (including within articles) of the following PBT chemicals:

- Decabromodiphenyl ether (DecaBDE)
- Phenol, Isopropylated Phosphate 3:1 (PIP 3:1)
- 2, 4, 6-tris(tert-butyl)phenol (2, 4, 6-TTBP)
- Hexachlorobutadiene (HCBD)
- Pentachlorothiophenol (PCTP)

To the best of our knowledge, based on supplier part and raw material declarations, Spark Holland BV declares that products supplied to our customers do not contain any of the of the five (5) PBT chemicals listed above and that none of the above-mentioned chemicals are intentionally used or added to our products.
